

Safety Data Sheet

2-S738 Green Sprue

1.1 Product identifiers Product name: 2-S738 Green Sprue 1.2 Relevant identified uses of the substance or mixture and uses advised against Identified uses: Sprue wax 1.3 Details of the supplier of the safety data sheet Freeman Manufacturing and Supply Company 1101 Moore Road, Avon, OH 44011 (440) 934-1902 1.4 Emergency telephone number www.freemansupply.com CHEMTREC (800) 424-9300 Section 2 Hazards Identification 2.1 Classification of the substance or mixture Not classified according to OSHA 29 CFR 1910.1200 HCS 2.2 GHS Label elements, including precautionary statements No label element(s) required 2.3 Hazards not otherwise classified Molten product can cause serious burns. Section 3 Composition/Information on Ingredients 3.1 Mixture of Substances Proprietary mixture of waxes, additive(s) and/or oil soluble dye(s). No components need to be disclosed according to the applicable regulations. Section 4 First Aid Measures 4.1 Description of first aid measures Inhalation Get medical assistance if irritation develops or persists. If breathing is difficult, move the person to fresh air. Give artificial respiration if person is not breathing. For thermal burns, flush or submerge effected area in cold water to dissipate heat. Cover with clean bandage material. Do not peel material from skin. Get medical attention. For contact at ambient temperatures, wash with soap and water.	
1.2 Relevant identified uses of the substance or mixture and uses advised against Identified uses: Sprue wax 1.3 Details of the supplier of the safety data sheet Freeman Manufacturing and Supply Company 1101 Moore Road, Avon, OH 44011 (440) 934-1902 www.freemansupply.com Section 2 Hazards Identification 2.1 Classification of the substance or mixture Not classified according to OSHA 29 CFR 1910.1200 HCS 2.2 GHS Label elements, including precautionary statements No label element(s) required 2.3 Hazards not otherwise classified Molten product can cause serious burns. Section 3 Composition/Information on Ingredients 3.1 Mixture of Substances Proprietary mixture of waxes, additive(s) and/or oil soluble dye(s). No components need to be disclosed according to the applicable regulations. Section 4 First Aid Measures Inhalation Get medical assistance if irritation develops or persists. If breathing is difficult, move the person to fresh air. Give artificial respiration if person is not breathing. Skin contact For thermal burns, flush or submerge effected area in cold water to dissipate heat. Cover with clean bandage material. Do not peel material from skin. Get medical attention.

Skin contactmove the person to fresh air. Give artificial respiration if person is not breathing.Skin contactFor thermal burns, flush or submerge effected area in cold water to dissipate heat. Cover with clean bandage material. Do not peel material from skin. Get medical attention.	
Skin contact For thermal burns, flush or submerge effected area in cold water to dissipate heat. Cover with clean bandage material. Do not peel material from skin. Get medical attention.	
Cover with clean bandage material. Do not peel material from skin. Get medical attention.	
For contact at ambient temperatures, wash with soap and water.	
Eye contact Immediately flush with plenty of water for at least 15 minutes.	
If irritation persists, get medical attention immediately.	
IngestionIf swallowed, rinse mouth with water. Never give anything by mouth to an unconscious per Do NOT induce vomiting. Consult a physician if necessary.	5011.
Section 5 Fire Fighting Measures	
5.1 Extinguishing media	
Suitable extinguishing media: Water fog, dry chemical, foam, carbon dioxide.	
Unsuitable extinguishing media: Do not use a solid water stream as it may scatter and spread fire.	
5.2 Special hazards arising from the substance or mixture	
Unusual Fire and Explosion Hazards: Molten material can create slippery conditions. Avoid generating du	<u>-</u>
dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dus	
explosion hazard. This is an unlikely scenario but users should be aware of the risk.	
Hazardous Combustion Products: Carbon dioxide, carbon monoxide, complex hydrocarbons, irritating sn	t
5.3 Advice for firefighters	t
Wear self-contained breathing apparatus for firefighting if necessary.	t
	t

Sect	ion 6 Accidental Release Measur	es
 6.1 Personal precautions, protective equipm Avoid breathing fumes. Avoid contact v 6.2 Environmental precautions Should not be released into the enviro 6.3 Methods and materials for containment Allow molten material to cool. Contain 	with skin and eyes. Wear appropria nment. Prevent product from enter and cleaning up	ing drains.
Shovel spillage into suitable container		g tools to collect material.
	Section 7 Handling and Storage	
7.1 Precautions for safe handling		
Wear appropriate personal protective water after handling and before eating Avoid breathing fumes. Avoid contact Specific end use(s): Avoid heating ab- operations). Do not let molten product 7.2 Conditions for safe storage, including an Store at ambient temperatures in close	, drinking, or using tobacco. Do not with molten material. ove 100°C (212°F) during the norm stand unused in melt tanks and inj y incompatibilities ed containers. Keep away from ignit	and eyes. Wash thoroughly with soap and use in areas without adequate ventilation. al investment casting process (except dewa ection machines. Stir product at all times. ion sources, heat, open flames, and direct heated. Do not store with incompatible

to conditions. Supplementary local exh needed in special circumstances, such dusts, etc. 8.3 Personal protective equipment	aust ventilation, closed systems, or	ed. Ventilation rates should be matched respiratory and eye protection may be ot processing, mechanical generation of
Eye/Face Wear safety glasses equipped with side Hands		
Wear thermally resistant gloves and lo Skin/Body Prevent skin contact, wear long sleeve Respiratory		ict.
If elevated airborne concentrations ab	ove applicable workplace exposure respirator regulations found in 29 (CFR 1910.134 or European Standard EN
Safety Stations Make emergency eyewash stations and General Hygienic Practices Avoid breathing dust, vapor or mist. V	-	nove contaminated clothing promptly and

Avoid breathing dust, vapor or mist. Wash thoroughly after handling. Remove contaminated clothing prompt clean thoroughly before reuse. Avoid contamination of food, beverages, or smoking.

Section 9 Phy	rsical and Chemical Properties		
9.1 Information on basic physical and chemical pro	operties		
Physical State:	Solid		
Color:	Green		
Odor:	Mild		
Odor Threshold:	No data available		
pH:	Not applicable		
Melting Point:	Approximately 161°F (72°C)		
Boiling Point:	No data available		
VOC Content:	0		
Flash Point:	>365°F (185°C)		
Evaporation Rate:	No data available		
Flammability (solid, gas):	No data available		
Lower Explosion Limit:	No data available		
Upper Explosion Limit:	No data available		
Vapor Density:	No data available		
Specific Gravity:	Approximately 0.932 at 20°C		
Water Solubility:	Insoluble		
Partition Coefficient: n-octanol/water:	No data available		
Auto-Ignition Temperature:	No data available Solid at room temperature Not explosive		
Viscosity:			
Explosive Properties:			
	Not explosive Not an oxidizer		
Oxidizing Properties:	Not all oxidizer		
Section 1	0 Stability and Reactivity		
10.1 Reactivity:	No dangerous reaction known under conditions of normal use.		
10.2 Chemical stability:	Stable under recommended storage conditions.		
10.3 Possibility of hazardous reactions:	Hazardous polymerization does not occur.		
10.4 Conditions to avoid:	Heat, sparks, open flame. Avoid dust formation. Strong oxidizing agents.		
10.5 Incompatible materials:			
10.6 Hazardous decomposition products	In case of fire hazardous decomposition products may be		
to.o nazar dous decomposition products	produced: carbon monoxide, carbon dioxide, irritating smoke.		
Section 11	Toxicological Information		
	<u> </u>		
11.1 Information on toxicological effects	N 1 (11)		
Acute toxicity	No data available		
Inhalation	Wax fumes have been reported to be irritating to the respiratory		
	tract, especially to sensitized persons.		
Dermal	Molten product will cause thermal burns on contact		
Skin corrosion/irritation	No data available		
Serious eye damage/eye irritation	Molten product will cause thermal burns on contact		
Respiratory or Skin Sensitization	Classification criteria not met		
Germ Cell Mutagenicity	Classification criteria not met		
Carcinogenicity	No component of this product present at levels greater than or		
	equal to 0.1% is identified as a known or anticipated carcinogen b		
	IARC, NTP, or OSHA.		
Reproductive Toxicity			
Reproductive Toxicity Specific Target Organ Toxicity (STOT)	IARC, NTP, or OSHA. Classification criteria not met		
Reproductive Toxicity Specific Target Organ Toxicity (STOT) Single Exposure	IARC, NTP, or OSHA. Classification criteria not met No data available		
Reproductive Toxicity Specific Target Organ Toxicity (STOT)	IARC, NTP, or OSHA. Classification criteria not met		

Section 12 Ecological Information

12.1 ToxicityNot expected to be harmful to aquatic organisms12.2 Persistence and degradabilityExpected to be inherently biodegradable12.3 Bioaccumulative potentialNo data available				
			12.4 Mobility in soil	Expected to partition to sediment and wastewater solids
12.5 Results of PBT & vPvB assessment	No data available			
Section 13 Disposal Considerations				
13.1 Disposal Follow applicable Federal, State, and local	regulations.			
•••	on 14 Transport Information			
14.1 DOT, TDG, IMO/IMDG, IATA/ICOA:	Not regulated			
Sectio	on 15 Regulatory Information
