Substance Name Wax fumes	Exposure Limit 2 mg/m³ TWA	Sources NIOSH REL / ACGIH TLV					
3.2 Exposure controls		NIOSII KEE / ACUIII TEV					
mechanical generation of dusts, etc. 8.3 Personal protective equipment Eye/Face Wear safety glasses equipped with s Hands Wear thermally resistant gloves and Skin/Body	10 air changes per hour) should be ary local exhaust ventilation, close l circumstances, such as poorly ve side shields, or safety goggles. l long sleeves if handling molten p	ed systems, or respiratory and eye entilated spaces, very hot processing,					
Prevent skin contact, wear long slee Respiratory The need for respiratory protection ventilation. If elevated airborne cor use an air-purifying respirator. Follo	is not anticipated under normal uncentrations above applicable wor ow the OSHA respirator regulation	rkplace exposure levels are anticipated,					

Section 9 Physical and Chemical Properties					
9.1 Information on basic physical and chemical properties					
Physical State:	Solid				
Color:	Light blue				
Odor:	Mild				
Odor Threshold:	No data available				
pH:					
Melting Point:	Not applicable >157°F (69°C)				
Boiling Point:	No data available				
VOC Content:	0				
Flash Point:	>378°F (192°C)				
	No data available				
Evaporation Rate:					
Flammability (solid, gas):	No data available				
Lower Explosion Limit:	No data available				
Upper Explosion Limit:	No data available				
Vapor Density:	No data available				
Specific Gravity:	0.9 ± 0.05				
Water Solubility:	Insoluble				
Partition Coefficient: n-octanol/water:	No data available				
Auto-Ignition Temperature:	No data available				
Viscosity:	Solid at room temperature				
Explosive Properties:	Not explosive				
Oxidizing Properties:	Not an oxidizer				
Section 10	0 Stability and Reactivity				
10.1 Reactivity:	No dangerous reaction known under conditions of normal use.				
10.2 Chemical stability:	Stable under recommended storage conditions.				
10.3 Possibility of hazardous reactions:	Hazardous polymerization does not occur. Heat, sparks, open flame. Avoid dust formation.				
10.4 Conditions to avoid:					
10.5 Incompatible materials:	Strong oxidizing agents.				
10.6 Hazardous decomposition products	In case of fire hazardous decomposition products may be				
	produced: carbon monoxide, carbon dioxide, irritating smoke.				
Section 11	Toxicological Information				
11.1 Information on toxicological effects					
Acute Toxicity – Dermal	No data available				
Acute Toxicity – Inhalation	No data available				
Acute Toxicity – Oral	No data available				
Skin Corrosion/Irritation	Classification criteria not met Classification criteria not met Classification criteria not met				
Serious Eye Damage/Eye Irritation					
Respiratory or Skin Sensitization					
Germ Cell Mutagenicity	Classification criteria not met				
Carcinogenicity	No component of this product present at levels greater than or				
	equal to 0.1% is identified as a known or anticipated carcinogen				
	by IARC, NTP, or OSHA.				
Reproductive Toxicity	Classification criteria not met				
Specific Target Organ Toxicity (STOT)					
Single Exposure	No data available				
Repeated Exposure	No data available				
Aspiration Hazard	Not relevant				

	Section 1	12 Ecological Information	
12.1 Toxicity 12.2 Persistence and degradabi 12.3 Bioaccumulative potential 12.4 Mobility in soil 12.5 Results of PBT & vPvB asse	-	Expected to be inhere No data available	rmful to aquatic organisms ntly biodegradable to sediment and wastewater solids
	Section 1	3 Disposal Considerations	
13.1 Disposal Follow applicable Federal	, State, and local re	egulations.	
	Section 1	14 Transport Information	
14.1 DOT, TDG, IMO/IMDG, IATA	A/ICOA:	Not regulated
