**Safety Data Sheet** 

# Ferris<sup>®</sup> Casting Wax Sheets - Pink

# Section 1 Chemical Product and Company Identification

# **1.1 Product identifiers**

Product name: Ferris<sup>®</sup> Casting Wax Sheets - Pink

**1.2 Relevant identified uses of the substance or mixture and uses advised against** Identified uses: Specialty wax for jewelry and dental

# **1.3 Details of the supplier of the safety data sheet**

Freeman Manufacturing & Supply Company 1101 Moore Road, Avon, OH 44011 Telephone (440) 934-1902 www.freemansupply.com

#### **1.4 Emergency telephone number** CHEMTREC (800) 424-9300

Section 2 Hazards Identification

# 2.1 Classification of the substance or mixture

Not classified according to OSHA 29 CFR 1910.1200 HCS **2.2 GHS Label elements, including precautionary statements** 

No label element(s) required

# 2.3 Hazards not otherwise classified

Molten product can cause serious burns.

#### Section 3 Composition/Information on Ingredients

#### 3.1 Mixture of Substances

Proprietary mixture of synthetic waxes, resins, and additive(s). No components need to be disclosed according to the applicable regulations.

# **Section 4 First Aid Measures**

#### 4.1 Description of first aid measures

Inhalation	Get medical assistance if irritation develops or persists. If breathing is difficult,			
	move the person to fresh air. Give artificial respiration if person is not breathing.			
Skin contact	For thermal burns, flush or submerge effected area in cold water to dissipate heat.			
	Cover with clean bandage material. Do not peel material from skin. Get medical attention.			
	For contact at ambient temperatures, wash with soap and water.			
Eye contact	Immediately flush with plenty of water for at least 15 minutes.			
	If irritation persists, get medical attention immediately, preferably an ophthalmologist.			
Ingestion	If swallowed, rinse mouth with water. Never give anything by mouth to an unconscious person.			
-	Do NOT induce vomiting. Consult a physician if necessary.			

#### **Section 5 Fire Fighting Measures**

#### 5.1 Extinguishing media

Suitable extinguishing media: Water fog, dry chemical, foam, carbon dioxide.

**Unsuitable extinguishing media:** Do not use a solid water stream as it may scatter and spread fire.

# 5.2 Special hazards arising from the substance or mixture

**Unusual Fire and Explosion Hazards:** Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. See Section 10 for possible products of hazardous combustion.

#### **5.3 Advice for firefighters**

Wear self-contained breathing apparatus for firefighting if necessary.

# **Section 6 Accidental Release Measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes. Wear appropriate personal protective equipment, see Section 8. **6.2 Environmental precautions** 

#### Should not be released into the environment. Prevent product from entering drains.

#### 6.3 Methods and materials for containment and cleaning up

Contain spillage and use clean non-sparking tools to collect material.

Shovel spillage into suitable container for disposal.

# Section 7 Handling and Storage

### 7.1 Precautions for safe handling

Wear appropriate personal protective equipment, see Section 8. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling. Do not use in areas without adequate ventilation. Avoid breathing fumes. Avoid contact with molten material.

# 7.2 Conditions for safe storage, including any incompatibilities

Store at ambient temperatures. Keep in closed container when not in use. Keep away from ignition sources, heat, open flames, and direct sunlight. Do not store with incompatible materials, see Section 10.

# Section 8 Exposure Controls/Personal Protection

### 8.1 Control parameters

Substance Name	Exposure Limit	/ Standard	Source
Wax fumes	2 mg/m <sup>3</sup> 7	ΓWA	ACGIH

# 8.2 Exposure controls

#### **Appropriate engineering controls**

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. Supplementary local exhaust ventilation may be needed in special circumstances, such as poorly ventilated spaces, very hot processing, mechanical generation of dusts, etc.

#### 8.3 Personal protective equipment

# Eye/Face

Wear safety glasses equipped with side shields, or safety goggles.

# Hands

Chemical protective gloves should not be needed when handling this material. Use gloves to protect from mechanical injury. Use gloves with insulation for thermal protection when needed.

# Skin/Body

No precautions other than clean body-covering clothing should be needed.

#### Respiratory

The need for respiratory protection is not anticipated under normal use conditions and with adequate ventilation. If elevated airborne concentrations above applicable workplace exposure levels are anticipated, or when adverse effects such as respiratory irritation has been experienced, or where indicated by your risk assessment process, then use an approved air-purifying respirator. Use an approved air-purifying respirator with organic vapor cartridge and particulate pre-filter when vapors are generated at increased temperatures. **Safety Stations** 

Make emergency eyewash stations and washing facilities available in work area.

# **General Hygienic Practices**

Wash thoroughly after handling, and before eating, drinking or smoking. Remove contaminated clothing promptly and clean thoroughly before reuse. Avoid contamination of food, beverages, or smoking

Section 9 Physical and Chemical Properties				
9.1 Information on basic physical and chemical p	ronerties			
Physical State & Color	Translucent pink solid			
Odor	Mild			
Odor Threshold	No data available			
pH	No data available			
Melting Point	>165°F (74°C)			
VOC Content	0			
Boiling Point	No data available			
Flash Point				
	465°F (240°C) No data available			
Evaporation rate				
Flammability (solid, gas)	No data available			
Upper/lower flammability	No data available			
Vapor Pressure	No data available			
Vapor Density	No data available			
Relative Density (g/cc)	$0.9 \pm 0.05$			
Water Solubility	Negligible			
Coefficient: n-octanol/ water	No data available			
Auto-Ignition Temperature	No data available			
Viscosity	Solid at room temperature			
Explosive Properties	None			
Oxidizing Properties	None			
Section 10	Stability and Reactivity			
10.1 Reactivity:	No dangerous reaction known under conditions of normal use.			
10.2 Chemical stability:	Stable under recommended storage conditions.			
10.3 Possibility of hazardous reactions:	Hazardous polymerization does not occur.			
10.4 Conditions to avoid:	Heat, sparks, open flame.			
10.5 Incompatible materials:	Strong oxidizing agents.			
10.6 Hazardous decomposition products	May include: carbon monoxide, carbon dioxide			
Section 11	Foxicological Information			
11.1 Information on likely routes of exposure:				
	Vorus low to vigity if availanced Harmful affects and anti-instal			
Acute Oral Toxicity	Very low toxicity if swallowed. Harmful effects not anticipated from swallowing small amounts
