

Ferris® 2194 Injection Wax Beads

Description

Ferris® 2194 Injection Wax is one of the most popular formulas in the Ferris line and features the best release properties. However, once injected, the shelf life of this wax is shorter than our other waxes. It is ideal for both thin or thick sections and reproduction of extra fine details.

Physical Properties

Color	Aqua, Turquoise, Blue, Red
Ring & Ball Softening Point (°F)	153-165
Injection Temperature (°F)	160-165
